

AMERICA'S DEFENSE MELTDOWN

Pentagon Reform for President Obama and the New Congress

13 non-partisan Pentagon insiders, retired military officers
& defense specialists speak out

The World Security Institute's Center for Defense Information (CDI) provides expert analysis on various components of U.S. national security, international security and defense policy. CDI promotes wide-ranging discussion and debate on security issues such as nuclear weapons, space security, missile defense, small arms and military transformation.

CDI is an independent monitor of the Pentagon and Armed Forces, conducting research and analyzing military spending, policies and weapon systems. It is comprised of retired senior government officials and former military officers, as well as experienced defense analysts. Funded exclusively by public donations and foundation grants, CDI does not seek or accept Pentagon money or military industry funding. CDI makes its military analyses available to Congress, the media and the public through a variety of services and publications, and also provides assistance to the federal government and armed services upon request.

The views expressed in CDI publications are those of the authors.
